little the real situation, and it is usery doubtful if this scheme is successful. From now on both sides will put in their best efforts. There are many produced as the possible of the manufacture of fire-arms or ammunition, believes that were it possible to compel every law-abilding citizen to arm himself and to not interested in the manufacture of fire-arms or ammunition, believes that water in which the hair is washed will keep it light and at the same time abilding citizen to arm himself and to not not seems to be no pivotal state, but learn to about straight, and were it possible and to not interest the possible of the same time act as a tonic to the scalp. mear future.

THE COMMERCE COURT.

It was a very unfortunate circumstance that conditions surrounding one member of that body should bring the commerce court into the limelight so strongly at the present time. It is presence of revolvers in the house serving to cause the passing of judg-does not argue for suicides as only ment on the court before the verdict two and a buil per cent, of homicides of the investigation committee is reached as is indicated by the action of the house looking to its abolish-The court has never been any too popular and it lost what support it did have when the vote in favoring of its end was passed two

In the trial of Judge Archbald, however, it is the man and not the court who is under suspicion, and should he be found guilty it does not hold that the court is a bad institution. The investigation by the committee, whatever its result, will serve to make it a better court, firmly setting forth that the judiciery must conduct uselves within the law and he-

There has been a good start made by the house in the plan to wipe our the court. The interstate commission has been opposed to it because of its hindering proclivities. The measure shifts the appeals which would so to the commerce court, to the district courts. The senate will have to act on the abolishment before the bill is passed and it may get to the president. If it is shown that it is for the heat interests that the court be abollahed, there is no doubt it will go and with the approval of the presi-

PATENT LAW LEGISLATION.

The agitation for a change in the parent laws as the result of the re- ably in response to the cry of the cent decision of the United States su- | people prema court, has only been further stirred by the Oldfield bill against ich manufacturers have shown a

SUGGESTIONS FOR

A pinch of borax put into the water with Iresh cut flowers will make them last longer in hot weather.

Always lay a shirt on the table while packing, as it is most important that it should be kept flat.

Glycerine is the best inbricant for the meat or vegetable grinder, for the reason that it does not leave un-pleasant odor if brought into contact with the meat.

TO CLEAN PEWTER.

To clean old pewter, experts usually table runners of the California find it best to dip the plates and tankards, as the case may be, in a basinful of hot water in which some sodal crystal or borax have been dissolved.

The water should be almost hotter than the izends can bear and the new. than the hands can bear, and the pewter must be washed with a hard nail brush and plenty of soap. To make it shine, there is nothing to equal ordinary metal polish of a reliable make, to which a few drops of petroleum have been added. The dishes must then be washed in warm seapsuds, and inally rubbed dry with powers.

HEALTH AND BEAUTY.

Just before retiring massage the hands well with a good cold cream, and without wiping away any remaining portion sllp on the loose gloves.

Bruises and cuts can have no better treatment than to apply turpentine immediately. It will sting, but it will
